

# 10<sup>th</sup> EDITION

## IBERWINE AWARDS 2009

# IBERWINE

### It's our tenth anniversary!

The tenth edition of the International Wine Competition "Iberwine Awards" is open to all brands of bottled and labelled wines, from both Spanish and foreign wineries whose products and goods are in accordance with the definitions established by the O.I.V. (International Organisation of Vine and Wine) and by the European Union legislation.

The International Wine Competition "Iberwine Awards" is officially recognized by the Spanish Ministry of Environment and Rural and Marine Environment, as well as by the Autonomous Region of Madrid.

During the ten years this event has been being held, it has become a leading national reference, both for the prestige of jurors and for the rigor and professionalism that characterize it. Both the number of samples submitted during these years and the quality of the winning wines confirm it.

The Registration Forms must be sent together with the proofs of payment from October 19 to November 16.

Once registration is complete, each sample bottle will be covered in such a way that the label and capsule are hidden, and will be identified with a random number, which will accompany the sample throughout the tasting process, until the Awards are proclaimed. Both the tasting and the tasting notes will be in accordance with the definitions established by the O.I.V. (International Organisation of Vine and Wine). The jury of the tasting consists of tasters with the highest qualification and experience in national and international competitions.

The wine contests have become an excellent tool for promotion, effective not only in the professional field, but also capable of reaching the consumer market. This is an opportunity given to us to open new ways of business and enter new markets. Just to commemorate the tenth anniversary, the Organization will establish a special award.

**Good luck to all participants.**
